⑥ Nakano Momiji Mountain

⑦ Momiji Mountain park

⑧ Nakano Momiji Mountain of Kuroishi city is famous for its autumn foliage. Every fall, the mountain side is filled with blazing red leaves. The night illumination creates a magical atmosphere together with the serene view of Fudo waterfall and stream.

⑩

Nakano Shrine is situated within the woods of Nakano Momiji Mountain. Nakano Shrine is the home of several ancient trees ? 200-year old Japanese maple, 600-year old great cedar, 200-year old fir tree ? that are natural monuments of Kuroishi city. Visitors can hike around the shrine on the 2-km (1.2 miles) hiking trail and enjoy the beautiful autumn leaves.

⑦ Night Illumination / The Koyo Lunch

⑨ Nakano Momiji Mountain can be enjoyed at night with its autumn illumination during the fall season. During summer, visitors can also enjoy the summer night illumination “Summer Momiji Illumination Fantasy” and appreciate the contrast between summer and autumn leaves.

The koyo-doko (autumn-leaf dining platform) is set up specially for visitors to view the waterfall while enjoying lunch. The koyo lunch uses many locally grown ingredients and is served only at the koyo-doko.
