● Results of Activities

Figure 1

Last year, the total activity time was 2751 hours, an average of 7.5 hours per day. In terms of the percentage of activity hours by type, sports and art were the least expensive at 15%, and there was not much difference between the three types.(Figure1)

During the summer holidays, language lessons for children were the most popular, followed by tourist support, which supported 95% of requests. In December, many participants gathered at the annual volunteer experience festival.(Figure2)

We are planning an event because there are few environmental protection volunteers who participate in the cold weather every year. We are also looking for ideas, so please feel free to send us your ideas.
