

JEED Prefectural Offices

The Elderly/Persons with Disabilities Service Department provides services including counseling and support for the elderly employment, receiving application for grants for the elderly and disability employment, receiving the declaration of levy from employers, and organizing the Prefectural Abilympics. The Job Seekers Support Department receives application for accreditation of services stipulated in the Job Seekers Support System. Levy Research Department conducts research on employers stipulated in the Levy and Grant System. The General Affairs Department handles management of facilities under prefectural offices, including accounting and competitive bidding.

Local Vocational Centers for Persons with Disabilities provide professional vocational rehabilitation services to persons with disabilities, counseling/assistance regarding disability employment management to employers, and advice/assistance on vocational rehabilitation to relevant local institutions.

Polytechnic Centers (Human Resources Development Promotion Centers) provide vocational training to job seekers for their quick reemployment and to workers at small- and medium-sized enterprises, as well as support for human resources development.

Polytechnic Colleges (Human Resources Development Colleges and Junior Colleges) train high school graduates and others to be able to respond to the latest skills and technology at the manufacturing floor in companies by mastering the basics of production.
