

## ***Joint and Entrusted Research***

In order to resolve issues that local small- and medium sized enterprises and other facilities are facing, such as the need for stronger technical capacity, Polytechnic Colleges engage in joint and entrusted research and provide technical assistance toward labor-savings and functional improvement, thereby contributing to the community. Moreover, through collaboration with local industry, they will ascertain expertise on production floors and the latest technical trends to be used to enhance the experiments and practical training courses.

## ***Polytech Vision***

The Polytech Vision is an event held annually to introduce the current status and levels of advanced and practical education and training as well as research and development on manufacturing, to the relevant personnel at businesses, educational institutions such as high schools, and other organizations in the community. Programs of the Polytech Vision include exhibitions and presentations of products resulting from training and research, a manufacturing experience booth, robot making, and competitions.
